大作文增值资料

正文与功能句　附带 2010—2026 年英语一、英语二套用

颜色说明：黑色为固定句架；紫红色为题目相关词；蓝色为可替换内容。

使用方法：这只是给大家一个增值资料，补充更多功能句，希望让每个同学都能积累到自己喜欢的句子，去年根据反馈，考前发了最后的秘密增值资料，今年根据建议考前发这份增值资料。

已经熟练自己那套的，可看可不看，就是个补充而已。刚开始或者不熟练的，可以搭配学习使用。

按照同学们的建议进行整理，排版也按照群友给出的排版形式进行优化，经群友同意使用此排版。

批改达到扇贝和研可岸这种软件的保底分数即可，经过多年考场验证，用 DS 或者豆包批改打分，一些范文可能都无法被给予高度评价，大家不要走偏复习路线，不要在考场上因为过度构思作文浪费阅读时间，考前也不要完美主义浪费其它科目时间。

模版的通病就是生硬，除非自己根据题目去换词处理，但用模版确实是性价比高的备考方式，因为改卷老师并不会深究每句逻辑，差不多 15s 上下就直接下一张卷子，卷面和字体更重要。

2010 年　英语一　文化交流与兼收并蓄

【英文套用】

The picture draws attention to cultural exchange through a familiar scene from everyday life. In the drawing, a hotpot contains elements of Chinese and foreign cultures, and its caption calls it both delicious and nutritious.

The appeal of cultural exchange often begins with a familiar story, which encourages people to try something unfamiliar and gradually understand its background. By experiencing different traditions directly, people can discover shared human concerns that brief labels alone would be unlikely to make clear. Interest in cultural exchange is more likely to develop naturally when participants have opportunities to ask questions and discuss what surprises them. Through cultural exchange, people can learn how other communities celebrate important occasions, which helps them understand unfamiliar customs without rushing to dismiss them. Although fashions and tastes may change, cultural exchange can retain its value if ordinary people continue to participate in ways that respect different traditions.

Taken together, these points show why cultural exchange deserves support when people encounter unfamiliar traditions. To encourage cultural exchange, libraries could host accessible exhibitions, giving residents a better chance to explore different cultures.

【中文对照】

这幅图画通过日常生活中一个熟悉的场景，引出了文化交流这一话题。图中，一锅火锅装着中外文化元素，配文称它既美味又营养。

文化交流的吸引力常常始于一个熟悉的故事，这会促使人们尝试不熟悉的事物，并逐渐了解它的背景。通过亲自体验不同传统，人们能发现彼此共同关心的事情，而仅靠简短标签往往难以看清这些共同点。当参与者有机会提问并讨论让自己感到新鲜的事情时，对文化交流的兴趣才更容易自然加深。通过文化交流，人们能了解其他群体如何庆祝重要时刻，从而理解不熟悉的习俗，而不急于否定它们。虽然流行风尚和个人口味可能改变，但只要普通人继续以尊重不同传统的方式参与，文化交流就能保留自身价值。

由此可见，人们接触不熟悉的传统时，文化交流值得支持。为鼓励文化交流，图书馆可以举办便于参与的展览，让居民更有机会了解不同文化。

2011 年　英语一　文明旅游与环境责任

【英文套用】

The picture draws attention to pollution caused by tourism through a familiar scene from everyday life. In the picture, tourists are enjoying a boat trip while rubbish floats in the surrounding water.

Careless tourism can make leaving rubbish behind seem convenient, even when it damages the scenery that visitors came to enjoy. The immediate result may be polluted water, but local workers can also be left to remove rubbish that visitors could have taken away. Whether environmental protection succeeds often depends on how well waste disposal facilities suit the practical needs of visitors. Where careless tourism threatens local waterways, environmental protection helps visitors prevent further pollution before the damage becomes difficult to reverse. Although a bag for collecting rubbish may seem unimportant, its effect becomes clearer when tourists consistently take their waste away across different scenic areas.

The problems associated with littering deserve attention, especially when they damage shared waterways in tourist areas. To reduce pollution, park operators could improve waste collection while ensuring that visitors still have access to enjoyable recreation.

【中文对照】

这幅图画通过日常生活中一个熟悉的场景，引出了旅游活动造成的污染这一话题。图中，游客正乘船游览，周围的水面上却漂浮着垃圾。

不文明旅游行为可能让把垃圾留在景区显得省事，即使这样做会破坏游客前来欣赏的风景。直接的结果可能是水受到污染，当地工作人员还可能不得不清理游客本可以自行带走的垃圾。环境保护能否取得成效，往往取决于垃圾处理设施是否适合游客的实际需要。当不文明旅游行为威胁当地水域时，环境保护有助于游客在损害变得难以逆转之前避免进一步污染。虽然用来收集垃圾的袋子看似不起眼，但当游客在不同景区中持续带走自己的垃圾时，效果就会更加明显。

与乱扔垃圾相关的问题值得重视，尤其当这些问题在旅游区中破坏共享水域时。为减少污染，景区管理方可以改善垃圾收集服务，同时保证游客仍有正常休闲游玩的机会。

2012 年　英语一　面对挫折保持乐观

【英文套用】

The picture draws attention to our response to setbacks through a familiar scene from everyday life. In the drawing, one man despairs over an overturned bottle, while the other is glad that some liquid remains.

Optimism helps people look for a useful next step, particularly when an unwelcome event cannot be undone. Those who look carefully at what remains are more likely to find a practical way forward with the resources still available, even when their original plans have failed. Through positive thinking, individuals can respond constructively to disappointment rather than assume that one setback ends every possibility. Pessimism can make giving up seem unavoidable, even when other useful options are still available. The benefits of optimism also reach companions, who may feel encouraged to help when they see someone dealing calmly and patiently with a difficulty.

Taken together, these points show why optimism deserves encouragement when people face setbacks. To encourage constructive problem-solving, teachers could discuss possible solutions, giving students a better chance to try again after failure.

【中文对照】

这幅图画通过日常生活中一个熟悉的场景，引出了我们面对挫折的反应这一话题。图中，一个人因瓶子被打翻而沮丧，而另一个人庆幸里面还剩下一些液体。

当不如意的事情已经无法改变时，乐观能帮助人们寻找有用的下一步办法。认真看看自己还拥有什么的人，即使原来的计划已经失败，也更有可能利用仍然拥有的资源找到切实可行的办法。通过积极思考，个人能够妥善应对失望，而不是认为一次挫折就意味着毫无机会。悲观可能让放弃显得不可避免，即使仍有其他有用的选择。乐观也能让同伴受益；看到有人冷静而耐心地处理困难，他们可能更愿意提供帮助。

由此可见，人们面对挫折时，乐观值得鼓励。为鼓励主动解决问题，教师可以讨论可行的解决办法，让学生更有机会失败后再作尝试。

2013 年　英语一　认真选择毕业后的道路

【英文套用】

The picture draws attention to choices after graduation through a familiar scene from everyday life. A group of graduates faces four paths labelled employment, postgraduate study, going abroad and entrepreneurship.

Changes in career choices often reflect graduates' circumstances, since decisions about the future depend partly on available opportunities and personal strengths. Graduates show independent judgement when they compare several options and assess their abilities before deciding which path to take. What matters to young people is not merely immediate earnings, but whether a choice will offer worthwhile opportunities to learn and develop. If decisions are based only on what friends prefer, graduates may overlook whether the same path meets their own needs. Through career research, graduates can identify the skills required for their preferred path rather than rely on vague impressions of different occupations.

Taken together, these points show why informed decision-making deserves attention when graduates plan their future. To make the most of career information, universities can provide individual guidance, allowing students to compare different paths carefully.

【中文对照】

这幅图画通过日常生活中一个熟悉的场景，引出了毕业后的选择这一话题。一群毕业生面对四条道路，路上分别写着求职、考研、出国和创业。

职业选择的变化往往反映了毕业生的自身情况，因为有关未来的决定在一定程度上取决于现有机会和个人长处。毕业生先比较几种选择、再评估自己的能力，然后才决定走哪条路，这就体现了独立判断。对年轻人来说，眼前收入并非唯一考虑，他们还要看一种选择能否提供值得把握的学习和成长机会。如果只凭朋友喜欢什么来作决定，毕业生就可能忽略同样的道路是否适合自己的需要。通过职业调研，毕业生能够弄清理想道路需要哪些技能，而不是只凭对不同职业的模糊印象。

由此可见，毕业生规划未来时，有依据地作决定值得重视。为更好地发挥职业信息的作用，大学可以提供个别指导，让学生认真比较不同道路。

2014 年　英语一　回报父母的关爱

【英文套用】

The picture draws attention to care for parents through a familiar scene from everyday life. The two pictures show a mother holding her young daughter's hand thirty years ago and the grown daughter supporting her elderly mother today.

Care for parents helps adult children meet their parents' daily needs, particularly when age makes ordinary tasks more difficult. Those who stay in regular contact with their parents are more likely to notice changes in their health, even when parents rarely ask for help. Through mutual care, families can maintain close relationships rather than let busy routines gradually create distance. The benefits of regular companionship also reach older parents, who may feel valued when they see their children making time for them. Although caring for older parents may require careful planning, shared responsibilities allow a family to provide care that one person could not manage alone.

The importance of care for parents lies in maintaining family closeness, which becomes especially clear when parents grow older. To encourage family care, adult children could plan regular visits, giving parents a better chance to feel heard and supported.

【中文对照】

这幅图画通过日常生活中一个熟悉的场景，引出了关爱父母这一话题。两幅图显示，三十年前母亲牵着年幼女儿的手，如今长大的女儿搀扶着年老的母亲。

当年老使日常事务变得更加困难时，关爱父母能帮助成年子女满足父母日常生活中的需要。经常与父母联系的人，即使父母很少主动求助，也更有可能注意到他们健康状况的变化。通过相互关爱，家庭成员能够保持亲近的关系，而不是让忙碌的日常生活逐渐拉远彼此的距离。经常陪伴也能让年老的父母受益；看到子女专门抽出时间陪自己，他们可能感到自己受到重视。虽然照顾年老的父母可能需要认真安排，但共同分担责任能帮助一个家庭提供一个人难以独自承担的照顾。

关爱父母的重要性，在于维系亲密的家庭关系；当父母逐渐年老时，这一点尤其明显。为鼓励家庭关爱，成年子女可以安排定期探望，让父母更有机会感到有人倾听和支持。

2015 年　英语一　聚会时把注意力留给身边的人

【英文套用】

The picture draws attention to phone dependence through a familiar scene from everyday life. Four friends sit around a dining table, each looking at a mobile phone instead of talking to the others.

Phone dependence can make checking every message seem urgent, even when someone nearby is waiting for a response. When checking phones during conversations becomes a routine, friends may fail to notice the problem until their conversations become shorter. The immediate result may be a missed comment, but companions can also be left to repeat what they have just said. Those who put their phones aside are more likely to listen carefully to one another, even when online messages compete for their attention. Without self-restraint, excessive phone use may reduce meaningful contact, because users look down at their phones again whenever a brief pause occurs.

The problems associated with phone dependence deserve attention, especially when they weaken personal contact in social gatherings. To reduce distractions from phones, friends could agree to put phones away while ensuring that all participants still have a way to receive urgent calls.

【中文对照】

这幅图画通过日常生活中一个熟悉的场景，引出了手机依赖这一话题。四位朋友围坐在餐桌旁，各自看着手机，没有与其他人交谈。

手机依赖可能让查看每一条消息显得十分紧迫，即使身边的人正在等待回应。交谈时查看手机一旦成为习惯，朋友们就可能没有意识到问题，直到交谈变得更短。直接的结果可能是没听清别人说的话，同伴还可能不得不重复刚刚说过的话。把手机放到一边的人，即使网上的消息争夺他们的注意力，也更有可能认真听彼此说话。如果没有自我约束，过度使用手机可能减少有意义的交流，因为使用者一遇到短暂的停顿就会又低下头看手机。

与手机依赖相关的问题值得重视，尤其当这些问题在聚会中削弱人与人的交流时。为减少手机带来的干扰，朋友们可以约定收起手机，同时保证所有参与者仍有接听紧急来电的办法。

2016 年　英语一　父母以身作则

【英文套用】

The picture draws attention to parents setting a good example through a familiar scene from everyday life. In the drawing, the father on the left watches television and tells his son to study, while the father on the right studies alongside his child.

Setting a good example helps parents encourage children to study seriously, particularly when children notice actions as well as words. Those who continue learning themselves are more likely to make their advice convincing, even when children resist repeated commands. By reading alongside their children, parents can show them why careful study matters, instead of leaving them with demands that parents themselves ignore. The benefits of leading by example also reach children, who may develop a study routine when they see parents devoting regular time to learning. Although learning together may require some planning, shared routines allow a family to create an atmosphere that encourages concentration.

Taken together, these points show why leading by example deserves attention when parents guide their children. To encourage good study habits, parents could read beside their children, giving children a better chance to develop a regular routine.

【中文对照】

这幅图画通过日常生活中一个熟悉的场景，引出了父母以身作则这一话题。图中，左图的父亲看着电视并要求儿子学习，而右图的父亲和孩子一起学习。

当孩子既留意言语，也留意行为时，以身作则能帮助父母鼓励孩子认真学习。自己也继续学习的人，即使孩子不愿接受反复命令，也更有可能让自己的建议更有说服力。父母通过与孩子一起读书，能让孩子明白认真学习为什么重要，而不只是给他们连父母自己都不遵守的要求。以身作则也能让孩子受益；看到父母定期花时间学习，他们可能养成学习习惯。虽然一起学习可能需要花时间安排，但共同的作息习惯能帮助一个家庭营造有助于集中注意力的氛围。

由此可见，父母引导孩子时，以身作则值得重视。为鼓励良好的学习习惯，父母可以在孩子身边读书，让孩子更有机会养成规律的习惯。

2017 年　英语一　用小计划把想法落实为行动

【英文套用】

The picture draws attention to turning plans into action through a familiar scene from everyday life. One man sits before a full bookcase and boasts about his collection, while another sits at a desk and plans to finish twenty books this year.

Practical action helps readers benefit from available books, particularly when good intentions have not become a routine. A manageable reading plan makes regular reading easier to practise, since readers know how many pages to finish each day. Those who follow a daily plan are more likely to continue making progress, even when free time is limited. Through consistent action, readers can put their resources to use rather than judge progress by the number of books on their shelves. By reading carefully, people can discover new and useful perspectives on familiar problems that owning a collection alone would be unlikely to reveal.

Taken together, these points show why practical action deserves attention when readers make plans. Individuals need not finish a whole collection immediately; reading a few pages daily can help them maintain regular reading.

【中文对照】

这幅图画通过日常生活中一个熟悉的场景，引出了把计划落实为行动这一话题。一个人坐在装满书的书架前，炫耀自己藏书丰富，而另一个人坐在书桌前，计划今年读完二十本书。

当好的想法还没有变成习惯时，实际行动能帮助读书的人从已有的书中学到东西。有了做得到的读书计划，定期阅读更容易落实，因为读书的人知道每天要读完多少页。遵照每天的计划行动的人，即使空闲时间有限，也更有可能继续取得进步。通过持续行动，读书的人能够用好自己拥有的资源，而不是用书架上的书本数量判断进步。通过认真阅读，人们能发现看待常见问题的新颖而有用的角度，而仅靠拥有一批藏书往往难以获得这些认识。

由此可见，读书的人制定计划时，实际行动值得重视。每个人不必马上读完整批藏书；每天读几页，有助于他们坚持定期阅读。

2018 年　英语一　选课重在真正学有所获

【英文套用】

The picture draws attention to course selection through a familiar scene from everyday life. At a computer, a student weighs challenging courses that emphasise new knowledge and innovation against easier ones promising high marks and little homework.

Students show independent judgement when they compare course requirements and assess their learning needs before deciding which classes to take. What matters to learners is not merely the marks they receive, but whether a course helps them use knowledge in unfamiliar situations. Through challenging study, students can develop skills they have not mastered rather than repeat only what already feels easy. Although choosing an easy course may seem convenient, it offers no guarantee that the course will prepare a student for future challenges. Serious learning helps students make better use of their time at university, particularly when course choices shape the abilities they develop.

Taken together, these points show why serious learning deserves attention when students choose courses. To make the most of course information, universities can explain learning outcomes clearly, allowing students to choose with purpose.

【中文对照】

这幅图画通过日常生活中一个熟悉的场景，引出了选课这一话题。电脑前，一名学生正在比较两类课程：一类知识新、重创新、有难度，另一类给分高、易通过、作业少。

学生先比较课程要求、再评估学习需要，然后才决定选择哪些课程，这就体现了独立判断。对学习者来说，得到多少分并非唯一考虑，他们还要看课程能否帮助自己在不熟悉的情境中运用知识。通过有挑战性的学习，学生能够培养尚未掌握的技能，而不是只重复已经觉得容易的内容。虽然选择容易的课程可能显得省事，但这并不能保证这门课程会让学生为今后的挑战做好准备。当选课会影响他们培养哪些能力时，认真学习能帮助学生更好地利用大学时光。

由此可见，学生选择课程时，认真学习值得重视。为更好地发挥课程信息的作用，大学可以讲清课程的学习目标，让学生有目的地选择。

2019 年　英语一　坚持与适当休息

【英文套用】

The picture draws attention to perseverance through a familiar scene from everyday life. In the drawing, a tired climber says he wants to stop, while his companion offers him a drink and encourages him to rest before continuing.

Perseverance helps individuals work towards a worthwhile goal, particularly when progress requires more patience than they expected. Those who adjust their pace sensibly are more likely to continue their efforts, even when a task becomes tiring. People who take suitable breaks during physical effort are often better able to resume activity after resting, because rest gives their bodies time to recover. Through continued effort, individuals can deal patiently with temporary setbacks rather than abandon a goal at the first difficulty. The benefits of encouragement also reach tired companions, who may regain the willingness to continue when they see others standing beside them.

Taken together, these points show why perseverance deserves encouragement when people meet temporary setbacks. Individuals need not push themselves without a break; taking suitable breaks can help them sustain steady progress.

【中文对照】

这幅图画通过日常生活中一个熟悉的场景，引出了坚持这一话题。图中，疲惫的登山者说自己不想再爬了，而他的同伴递上饮料，鼓励他休息后继续前进。

当取得进步需要比预想更多的耐心时，坚持能帮助人们朝有价值的目标努力。合理调整节奏的人，即使任务让人感到疲惫，也更有可能继续努力。经常在体力活动中适当休息的人往往更能在休息后继续活动，因为休息让身体有时间恢复。通过持续努力，人们能够耐心应对暂时的挫折，而不是一遇到困难就放弃目标。鼓励也能让疲惫的同伴受益；看到有人陪伴在自己身边，他们可能重新愿意继续前进。

由此可见，人们遇到暂时的挫折时，坚持值得鼓励。人们不必逼自己一刻不停地前进；适当休息，有助于他们保持稳步前进。

2020 年　英语一　及早行动与做事习惯

【英文套用】

The picture draws attention to procrastination through a familiar scene from everyday life. In the drawing, one person prefers to finish work early, while the other waits until the last moment before starting.

Procrastination can make putting work off seem harmless, even when deadlines are approaching. When procrastination becomes a routine, individuals may fail to notice the time being lost until unfinished tasks leave little room for careful work. The immediate result may be carelessly rushed work, but colleagues can also be left to correct errors that could have been avoided. A realistic plan makes prompt action easier to practise, since individuals know what needs to be done first. Those who begin well before a deadline are more likely to deal with unexpected problems calmly, even when their original schedule has to change.

The problems associated with procrastination deserve attention, especially when they affect other people in shared tasks. To encourage prompt action, teachers could help students plan manageable steps, giving learners a better chance to finish work carefully.

【中文对照】

这幅图画通过日常生活中一个熟悉的场景，引出了拖延这一话题。图中，一个人愿意尽早完成工作，而另一个人总要等到最后一刻才开始。

拖延可能让推迟工作显得无关紧要，即使截止日期正在临近。拖延一旦成为习惯，人们就可能忽视正在浪费的时间，直到未完成的任务让人几乎没有时间认真做事。直接的结果可能是仓促草率完成的工作，同事还可能不得不纠正本来可以避免的错误。有了切实可行的计划，及时行动更容易落实，因为人们知道需要先做什么。在截止日前就提早行动的人，即使原定安排必须改变，也更有可能从容处理意外问题。

与拖延相关的问题值得重视，尤其当这些问题在共同任务中影响到别人时。为鼓励及时行动，教师可以帮助学生安排可完成的步骤，让学习者更有机会认真完成任务。

2021 年　英语一　尊重兴趣与独立选择

【英文套用】

The picture draws attention to independent choice through a familiar scene from everyday life. A child says that many classmates find learning traditional opera uninteresting, while his father reassures him that enjoying it is reason enough to keep learning.

Independent choice helps children develop genuine interests, particularly when their preferences differ from those of classmates. Although following popular opinions may seem safe, it offers no guarantee that the resulting choice will suit an individual child. Those who receive patient encouragement at home are more likely to continue learning and gradually develop their own abilities, even when their friends prefer other activities. Through independent judgement, children can explore what they enjoy rather than abandon interests merely to gain approval. Interest in traditional opera is more likely to deepen when young learners have opportunities to practise regularly and discuss what they discover.

Taken together, these points show why independent choice deserves support when children explore their interests. To encourage independent exploration, parents could listen patiently, giving children a better chance to make their own decisions.

【中文对照】

这幅图画通过日常生活中一个熟悉的场景，引出了独立选择这一话题。孩子说很多同学觉得学唱戏不好玩，而父亲安慰他，只要自己喜欢，就有理由继续学下去。

当自己的喜好与同学不同时，独立选择能帮助孩子培养真正的兴趣。虽然跟随流行看法可能显得稳妥，但这并不能保证由此作出的选择会适合每一个孩子。在家中得到耐心鼓励的人，即使朋友喜欢别的活动，也更有可能继续学习，逐渐培养自己的能力。通过独立判断，孩子能够探索自己喜欢的事物，而不是仅为获得认可就放弃兴趣。当年轻学习者有机会定期练习并交流自己的发现时，对传统戏曲的兴趣才更容易加深。

由此可见，孩子探索自己的兴趣时，独立选择值得支持。为鼓励自主探索，家长可以耐心倾听，让孩子更有机会自己作出决定。

2022 年　英语一　跨学科学习与开放心态

【英文套用】

The picture draws attention to cross-disciplinary learning through a familiar scene from everyday life. Beside a lecture notice, one student considers a talk outside their major of little use, while the other believes attending it would be beneficial.

Cross-disciplinary learning helps students broaden their understanding, particularly when a problem involves more than one field. Knowledge from another subject may seem unrelated at first, yet it can help students see connections that a single course leaves unexplored. Through cross-disciplinary learning, students can compare different ways of approaching a problem rather than assume unfamiliar material has no value. Students show openness when they listen carefully and ask questions before judging a lecture's usefulness. By attending lectures beyond their major, people can discover unexpected yet useful connections that studying the textbooks assigned for their own courses alone would be unlikely to reveal.

Taken together, these points show why broad learning deserves attention when students plan their studies. To encourage cross-disciplinary learning, universities could offer accessible introductory lectures, giving students a better chance to explore unfamiliar subjects.

【中文对照】

这幅图画通过日常生活中一个熟悉的场景，引出了跨学科学习这一话题。在讲座告示旁，一名学生认为专业以外的讲座没有多大用处，而另一名学生觉得去听听会有好处。

当一个问题涉及不止一个领域时，跨学科学习能帮助学生拓宽认识。其他学科的知识看起来也许起初并不相关，但它能帮助学生看见单门课程未曾探讨的联系。通过跨学科学习，学生能够比较处理问题的不同方式，而不是认定陌生内容没有价值。学生先认真听讲、再提出问题，然后才判断讲座有没有用，这就体现了开放的态度。通过听专业之外的讲座，人们能发现意想不到却有用的联系，而仅靠学习自己专业课程指定的教材往往难以发现这些联系。

由此可见，学生规划学习时，广泛学习值得重视。为鼓励跨学科学习，大学可以提供容易理解的入门讲座，让学生更有机会探索陌生学科。

2023 年　英语一　让传统文化走进共同生活

【英文套用】

The picture draws attention to cultural participation through a familiar scene from everyday life. In the foreground, two villagers praise the growing popularity of their dragon boat race, while racing boats and crowds lining the river can be seen in the background.

The appeal of traditional celebrations often begins with a familiar custom, which encourages people to join local activities and gradually understand their background. An opportunity to join a dragon boat race can turn initial curiosity into a willingness to participate regularly, especially for people who have had little previous access. Interest in dragon boat traditions is more likely to deepen when residents have opportunities to practise together and share memories of earlier celebrations. Through community festivals, people can learn how older generations mark important occasions, which helps them understand local customs without rushing to dismiss them. Although celebrations may change, dragon boat racing can retain its appeal if residents continue to take part in ways that fit present-day life.

Taken together, these points show why cultural participation deserves encouragement when communities organise festivals. If community groups provide suitable activities, younger residents will find it easier to take part, and local traditions can remain lively.

【中文对照】

这幅图画通过日常生活中一个熟悉的场景，引出了文化参与这一话题。画面近处，两位村民称赞村里的龙舟赛越来越热闹；远处则可以看到竞赛中的龙舟和河边的人群。

传统庆祝活动的吸引力常常始于一个熟悉的习俗，这会促使人们参加当地活动，并逐渐了解活动的来历。有机会参加龙舟赛，就可能让最初的好奇发展为持续参加活动的意愿，尤其是对以往很少有机会参与的人来说。当居民有机会一起练习并分享过去庆祝活动的回忆时，对龙舟传统的兴趣才更容易加深。通过社区节庆活动，人们能了解老一辈人如何庆祝重要的日子，从而理解当地习俗，而不急于否定这些习俗。虽然庆祝形式可能改变，但只要居民继续以适合当今生活的方式参与，龙舟竞赛就能保留吸引力。

由此可见，社区组织节庆活动时，文化参与值得鼓励。如果社区组织提供合适的活动，年轻居民就更容易参与，地方传统也能保持活力。

2024 年　英语一　公园建设与日常健身

【英文套用】

The picture draws attention to local recreation through a familiar scene from everyday life. Residents enjoy a new neighbourhood park, while the accompanying chart shows that the city's park total rose from 406 in 2020 to 532 in 2021 and 670 in 2022.

Park development matters because pleasant outdoor spaces create conditions in which residents can exercise near home. For busy residents, a nearby park offers an opportunity to fit exercise into daily life, especially when the setting encourages walking and other accessible activities. Whether park construction benefits the community often depends on how well the facilities provided suit the practical needs of local residents. Public parks can make a neighbourhood more welcoming, provided that paths and exercise areas remain accessible for those who need them most. Although adding outdoor exercise equipment may seem a small step, its effect becomes clearer when local authorities consistently provide safe and accessible facilities across residential areas.

Taken together, these points show why public green space deserves attention when cities plan new neighbourhoods. To make the most of park construction, local authorities can maintain facilities carefully, allowing residents to exercise safely.

这幅图画通过日常生活中一个熟悉的场景，引出了家门口的休闲活动这一话题。居民在家门口的新公园休闲，旁边的图表显示，该市公园数量从 2020 年的 406 座增至 2021 年的 532 座，再增至 2022 年的 670 座。

公园建设之所以重要，是因为舒适的户外空间为居民在家附近锻炼创造了条件。对忙碌的居民来说，附近的公园提供了把锻炼安排进日常生活的机会，尤其是在公园环境有利于散步等容易参与的活动时。公园建设能否让社区受益，往往取决于提供的设施是否适合当地居民的实际需要。只要步道和健身区域对最需要这些设施的人始终方便使用，公共公园就能让社区更加宜人。虽然增设户外健身器材看似一件小事，但当地方政府在居民区中持续完善安全方便的设施时，效果就会更加明显。

由此可见，城市规划新社区时，公共绿地值得重视。为更好地发挥公园建设的作用，地方政府可以认真维护设施，让居民安全锻炼。

2025 年　英语一　家用电器与生活便利

【英文套用】

From 2014 to 2023, air-conditioner ownership per 100 households rose from 75.2 to 145.9 units, an increase of 70.7 units. By 2023, washing-machine ownership and refrigerator ownership had reached 98.2 and 103.4 units per 100 households, respectively, both above their starting levels.

Changes in household appliance ownership often reflect living conditions, since purchase decisions depend partly on available income. What matters to families is not merely the purchase price, but whether a machine makes daily tasks less demanding. The appeal of household appliances also lies in practical conveniences, which allow families to save time for work or rest. Although initial costs may discourage some buyers, time saved on routine chores can make household appliances a sensible choice for those with busy schedules. In practice, household appliances may gain wider acceptance when safe designs and reliable repair services can meet families' everyday needs.

The importance of household appliances lies in greater convenience, which becomes especially clear when families face busy routines. For household appliances to remain useful, manufacturers need to offer affordable products without compromising safety.

【中文对照】

从 2014 年到 2023 年，每百户空调拥有量由 75.2 台升至 145.9 台，增加了 70.7 台。到 2023 年，每百户洗衣机拥有量和每百户冰箱拥有量分别达到 98.2 台和 103.4 台，均高于期初水平。

家电拥有量的变化往往反映了生活条件，因为购买决定在一定程度上取决于可支配收入。对家庭来说，购买价格并非唯一考虑，他们还要看电器能否让日常家务更省力。家用电器的吸引力还在于实用的便利，这些优势让家庭能够留出时间工作或休息。虽然最初的花费可能让部分购买者犹豫，但在日常家务上节省的时间也让日程繁忙的人有理由选择家用电器。实际生活中，当安全的设计和可靠的维修服务能够满足家庭的日常需要时，家用电器有可能得到更广泛的认可。

家用电器的重要性，在于更多便利；当家庭日常安排繁忙时，这一点尤其明显。要让家用电器继续发挥作用，制造商需要提供价格合理的产品，同时不能降低安全标准。

2026 年　英语一　养老机器人的接受度与实际顾虑

【英文套用】

The two charts present consumer acceptance and primary concerns, offering two different views of elderly care robots. The percentages for full acceptance, partial acceptance and rejection are 39.3%, 32.8% and 27.9%, respectively. At 46.3%, safety ranks first, followed by price and convenience at 24.9% and 10.7%, respectively.

Families may remain cautious about care robots if safety information is incomplete, even when advertising promises greater convenience. When product information is clear and accurate, families are better equipped to judge suitability instead of relying on untested claims. What matters to buyers is not merely a low price, but whether a machine can reliably help an older relative. In practice, care robots may gain acceptance when safe designs and simple controls can meet older users' needs. Although high prices may discourage potential buyers, time saved on routine care can make care robots a sensible choice for those with limited free time.

For care robots to be useful, manufacturers need to prioritise safety without complicating controls. To make the most of product demonstrations, community centres can invite older residents and their families to attend, allowing families to assess suitability for their older relatives.

如果安全信息不完整，家庭对养老机器人仍可能持谨慎态度，即使广告声称它能带来更多便利。当产品信息清楚准确时，家庭更有条件判断是否适合，而不必依赖未经验证的说法。对购买者来说，价格低廉并非唯一考虑，他们还要看机器能否可靠地帮助年长的亲人。实际生活中，当安全的设计和简单的操作方式能够满足老年使用者的需要时，养老机器人有可能获得认可。虽然高价格可能让潜在购买者犹豫，但日常照护节省的时间也让空闲时间有限的人有理由选择养老机器人。

要让养老机器人发挥作用，制造商需要优先保证安全，同时不能让操作变复杂。为更好地发挥产品演示的作用，社区中心可以邀请老年居民及家人参加，让家庭判断产品是否适合家中老人。

2010 年　英语二　移动电话订阅数量的增长

【英文套用】

Changes in mobile-phone subscriptions between 2000 and 2008 are illustrated in the chart. By 2008, subscriptions in developing countries and those in developed countries had reached about three billion and roughly one billion, respectively, both above their starting levels.

Changes in mobile-phone use often reflect differences in network coverage and affordability, since communication choices depend partly on the services people can afford. The appeal of mobile communication also lies in convenience and flexibility, which allow workers and families to exchange information while travelling. What matters to new subscribers is not merely the price of a handset, but whether calls remain reliable wherever they live. The future of mobile communication will also depend on whether network operators can extend reliable coverage without raising charges beyond ordinary budgets.

Taken together, these points show why mobile communication deserves careful planning when operators expand their services. To make the most of mobile communication, governments can support rural networks, allowing residents to stay in touch affordably.

【中文对照】

图表展示了 2000 年至 2008 年期间移动电话订阅数量的变化。到 2008 年，发展中国家的订阅数量和发达国家的订阅数量分别达到约 30 亿和约 10 亿，均高于期初水平。

移动电话使用的变化往往反映了网络覆盖和价格承受能力的差异，因为通信方式的选择在一定程度上取决于人们负担得起的服务。移动通信的吸引力还在于便利与灵活，这些优势让工作人员和家庭成员能够在出行途中交流信息。对新用户来说，手机价格并非唯一考虑，他们还要看无论住在哪里通话是否都能保持稳定。移动通信今后如何发展，还要看通信运营商能否在不让费用超出普通人的预算的同时扩大可靠网络的覆盖范围。

由此可见，运营商扩大服务范围时，移动通信值得认真规划。为更好地发挥移动通信的作用，政府可以支持农村网络建设，让居民以较低费用保持联系。

2011 年　英语二　不同品牌汽车的市场份额

【英文套用】

From 2008 to 2009, the share of Chinese-brand cars in the domestic market rose from about 25% to roughly 33%, an increase of approximately eight percentage points. In the same period, the Japanese-brand share registered a decline, dropping from roughly 35% to about 25%.

Changes in car purchases often reflect changing expectations of value, since brand choices depend partly on what families can reasonably afford. What matters to car buyers is not merely the purchase price, but whether maintenance and everyday running costs remain manageable. The appeal of buying a domestic car also lies in accessible repair services, which allow owners to resolve problems without lengthy journeys. In practice, demand for domestic cars may grow when reliable models and local services can meet buyers' practical requirements. Rather than following a popular brand without comparison, individual buyers need to consider whether a particular car fits their household budget and daily travel.

Taken together, these points show why value for money deserves close attention when families choose a car. For domestic cars to serve buyers well, manufacturers need to improve after-sales service without neglecting product quality.

从 2008 年到 2009 年，中国品牌轿车在国内市场的份额由约 25%升至约 33%，增加了约 8 个百分点。同期，日本品牌轿车的市场份额有所下降，从约 35%降至约 25%。

购车情况的变化往往反映了人们对产品性价比要求的变化，因为品牌选择在一定程度上取决于家庭合理负担得起的支出。对购车者来说，购车价格并非唯一考虑，他们还要看维修和日常使用费用是否仍能负担。购买国产汽车的吸引力还在于容易获得的维修服务，这些优势让车主能够解决问题而不必长途奔波。实际生活中，当可靠的车型和本地服务能够满足购车者的实际要求时，对国产汽车的需求有可能增长。购车者需要考虑某款汽车是否适合家庭预算与日常出行，而不是不作比较就追随热门品牌。

由此可见，家庭选择汽车时，性价比值得充分关注。要让国产汽车更好地服务购车者，汽车制造商需要改善售后服务，同时不能忽视产品质量。

2012 年　英语二　不同年龄员工的工作满意度

【英文套用】

What matters to employees is not merely the size of their salary, but whether their responsibilities are manageable and their efforts are recognised. Whether job satisfaction improves often depends on how well working hours and promotion arrangements suit the needs of employees at different ages. Without adequate support from managers, balancing work and family may become more demanding, even for those who are willing to fulfil their responsibilities. Through open workplace discussion, managers can identify concerns behind low job satisfaction rather than assume that age alone explains every difference. If job satisfaction is to improve, employees need opportunities to discuss difficulties, together with fair decisions on workload and development.

Taken together, these points show why job satisfaction deserves regular attention when managers review workplace arrangements. To encourage honest feedback, employers could offer confidential consultations, giving staff a better chance to explain their concerns.

【中文对照】

对员工来说，工资的多少并非唯一考虑，他们还要看工作职责是否能够承担、付出是否得到认可。工作满意度能否提高，往往取决于工作时间与晋升安排是否适合不同年龄员工的需要。如果缺少充足的支持，兼顾工作与家庭也可能变得更加困难，即使是愿意尽到责任的人也不例外。通过坦诚的职场沟通，管理者能够了解工作满意度较低背后的顾虑，而不是认为仅凭年龄就能解释所有差异。要让工作满意度提高，员工既需要讨论困难的机会，也需要有关工作量与职业发展的公平安排。

由此可见，管理者检查工作安排时，工作满意度值得持续关注。为鼓励真实反馈，老板可以提供匿名调查，让员工更有机会说出自己的顾虑。

2013 年　英语二　大学生兼职的年级差异

【英文套用】

The bar chart compares part-time participation rates across four college year groups, with clear differences between the categories. The percentages for first-year students, third-year students and final-year students are 67.77%, 71.93% and 88.24%, respectively.

Part-time work helps students gain experience beyond the classroom, particularly when they have few opportunities to observe a workplace. Those who take responsibility for a real task are more likely to understand what reliable service requires, even when the task initially appears straightforward. Through part-time work, students can discover their strengths and limitations rather than judge careers solely from course descriptions. What matters to students is not merely earning extra money, but whether their employers respect study schedules and employment rights. If part-time work is to support education, students need suitable opportunities near campus, together with clear guidance about hours and employment rights.

Taken together, these points show why part-time work deserves careful consideration when students plan their semester. To encourage responsible participation, universities could offer employment advice, giving students a better chance to balance work with study.

柱状图比较了大学四个年级学生的兼职参与比例，各类别之间存在明显差异。大一学生、大三学生和大四学生的比例分别为 67.77%、71.93%和 88.24%。

当他们很少有机会了解真实工作场所时，兼职能帮助学生获得课堂之外的经验。对实际任务负责的人，即使任务起初看起来很简单，也更有可能理解可靠服务需要做到什么。通过兼职，学生能够发现自己的长处与不足，而不是只凭课程介绍判断职业。对学生来说，额外赚钱并非唯一考虑，他们还要看雇主是否尊重学习安排和劳动权益。要让兼职有助于学习成长，学生既需要校园附近合适的机会，也需要有关工时与劳动权益的明确指导。

由此可见，学生规划学期安排时，兼职值得慎重考虑。为鼓励负责任地参与兼职，大学可以提供就业建议，让学生更有机会兼顾兼职与学习。

2014 年　英语二　中国城镇与农村人口变化

【英文套用】

Changes in urban and rural populations in China between 1990 and 2010 are illustrated in the chart. While the urban population rose from about 300 million to about 660 million, the rural population fell from about 830 million to about 670 million, narrowing the gap between them.

Changes in population distribution often reflect the location of jobs and services, since residential choices depend partly on the opportunities available to families. The appeal of urban living also lies in concentrated employment and services, which allow residents to reach workplaces, schools and hospitals more easily. What matters to new residents is not merely the availability of work, but whether housing and transport remain affordable. Whether urban development improves daily life often depends on how well public facilities suit the practical needs of growing communities. A balance between urban growth and environmental protection is possible if local governments consider population change when planning housing and public services.

Taken together, these points show why urbanisation deserves balanced planning when governments allocate public resources. For development to benefit everyone, authorities need to improve essential services without neglecting rural communities.

人口分布的变化往往反映了工作机会与服务的分布，因为居住地的选择在一定程度上取决于家庭能够获得的机会。城市生活的吸引力还在于集中的就业机会与服务，这些优势让居民能够更方便地到达工作地点、学校与医院。对新居民来说，有没有工作机会并非唯一考虑，他们还要看住房与交通费用是否负担得起。城市发展能否改善日常生活，往往取决于公共设施是否适合人口不断增加的社区的实际需要。如果地方政府在规划住房和公共服务时考虑到人口变化，就有可能兼顾城市发展与环境保护。

由此可见，政府配置公共资源时，城镇化值得统筹规划。要让发展惠及所有人，有关部门需要改善基本服务，同时不能忽视农村社区。

2015 年　英语二　春节假期支出的构成

【英文套用】

The pie chart compares percentage shares across four categories of Spring Festival spending in one city, with clear differences between the categories. The percentages for gifts, transport and meals and gatherings are 40%, 20% and 20%, respectively.

What matters to families celebrating the festival is not merely the amount they spend, but whether their purchases help them enjoy time together. The appeal of festival gift-giving also lies in personal attention and affection, which allow relatives and friends to express appreciation through thoughtful choices. Through observing festival spending, people can learn how families maintain relationships through shared occasions, which helps them understand differences in family priorities without rushing to rank celebrations by price. Rather than competing over expensive presents, households need to consider whether festival spending fits their actual budgets and family preferences. A realistic budget makes thoughtful spending easier to practise, since families know which expenses matter most and which can wait.

Taken together, these points show why festival spending deserves thoughtful planning when families prepare for celebrations. For celebrations to remain enjoyable, individuals need to choose meaningful activities without exceeding their budgets.

饼图比较了某市居民春节假期的四类花销的占比，各类别之间存在明显差异。礼物、交通和聚会吃饭的比例分别为 40%、20%和 20%。

对过节的家庭来说，花费多少并非唯一考虑，他们还要看购买的东西能否让家人更好地相聚。节日送礼的吸引力还在于对他人的关心与情意，这些优势让亲友能够通过用心挑选表达谢意。通过观察节日消费，人们能了解家庭如何通过共同度过重要时刻维系感情，从而理解不同家庭的侧重点差异，而不急于按花费高低评价过节方式。家庭需要考虑节日消费是否适合实际预算与家人喜好，而不是攀比昂贵礼物。有了合理预算，用心安排支出更容易落实，因为家庭知道哪些花费最重要、哪些可以暂缓。

由此可见，家庭准备过节时，节日消费值得用心规划。要让节日庆祝保持愉快，个人需要选择有意义的活动，同时不能超出预算。

2016 年　英语二　大学生旅游的主要目的

【英文套用】

The pie chart compares reported percentages across five travel purposes among college students, with clear differences between the categories. At 37%, enjoying scenery ranks first, followed by relieving stress at 33%. Only 6% is recorded for developing independence, the lowest figure among the categories shown.

For students, travel offers an opportunity to take a break from coursework, especially when the destination encourages outdoor activity. People who make time for breaks are often better able to return to study refreshed, because time away from routine gives the mind time to rest. By observing local landscapes and daily life, people can discover details of a place that online descriptions alone would be unlikely to make vivid. Rather than copying an exhausting itinerary, students need to consider whether a journey fits their interests, available time and budget. For this reason, well-planned travel has value beyond visiting famous sights, as it can restore energy and widen experience while accommodating different interests.

Taken together, these points show why travel deserves sensible planning when students arrange their holidays. For travel to offer a real break, travellers need to leave room for rest without overloading their itineraries.

饼图比较了某高校学生的五类旅游目的的调查比例，各类别之间存在明显差异。欣赏风景以37%的比例位居首位，其后是占 33%的缓解压力。培养独立能力的比例仅为 6%，在图示类别中最低。

对学生来说，旅游提供了暂时放下课业的机会，尤其是在目的地的环境有利于户外活动时。经常给自己安排休息的人往往更能在休息后精神饱满地投入学习，因为暂时离开日常安排让头脑有时间休息。通过观察当地风景与日常生活，人们能发现一个地方的细节，而仅靠网上介绍往往难以获得如此生动的认识。学生需要考虑一次旅行是否适合兴趣、可用时间与预算，而不是照搬令人疲惫的行程。因此，合理安排的旅游的价值不只在于参观著名景点，它还能帮助人们恢复精神、丰富阅历，同时兼顾不同兴趣。

由此可见，学生安排假期时，旅游值得合理规划。要让旅游带来真正的休息，出行者需要留出休息时间，同时不能把行程排得过满。

2017 年　英语二　博物馆数量与参观人次增长

【英文套用】

Changes in museum numbers and visits in China between 2013 and 2015 are illustrated in the chart. By 2015, the number of museums and annual visits had reached 4,692 and 781.1 million, respectively, both above their starting levels.

As museum visiting becomes more accessible, people who once had limited cultural opportunities have more places to explore history. By examining historical objects, people can discover details of everyday life that textbook summaries alone would be unlikely to show as clearly. Interest in museum visiting is more likely to grow when visitors have opportunities to ask about exhibits and discuss what they have learned. Museum visiting gives people access to different ways of life that they might rarely encounter in ordinary routines, encouraging them to consider how people lived in the past. For this reason, museum visiting has value beyond recreation, as it can deepen historical understanding while respecting different ways of life.

Taken together, these points show why museum access deserves continued support when cities plan cultural services. To encourage meaningful visits, museums could provide clear explanations, giving visitors a better chance to understand their collections.

图表展示了 2013 年至 2015 年期间中国博物馆数量与参观人次的变化。到 2015 年，博物馆数量和年度参观人次分别达到 4692 家和 7.811 亿人次，均高于期初水平。

随着参观博物馆变得更方便，原先文化活动机会有限的人们也有了更多了解历史的场所。通过观察历史实物，人们能发现日常生活的细节，而仅靠课本概述往往难以了解得这样清楚。当参观者有机会询问展品并讨论学到的内容时，对参观博物馆的兴趣才更容易增加。参观博物馆让人们接触到在日常生活中很少遇见的不同生活方式，并鼓励他们思考过去的人怎样生活。因此，参观博物馆的价值不只在于休闲娱乐，它还能加深对历史的理解，同时尊重不同的生活方式。

由此可见，城市规划文化服务时，博物馆开放服务值得持续支持。为鼓励有收获的参观，博物馆可以提供清楚的讲解，让参观者更有机会理解馆藏。

2018 年　英语二　居民选择餐厅的关注因素

【英文套用】

The pie chart compares reported percentages across five restaurant-selection priorities in a city in 2017, with clear differences between the categories. The percentages for distinctive features, service and the dining environment are 36.3%, 27.4% and 24.3%, respectively.

What matters to diners is not merely the price of a meal, but whether the food and service make the visit worthwhile. The appeal of a distinctive restaurant also lies in memorable dishes and surroundings, which allow customers to enjoy something different from routine meals. Diners may remain cautious about an unfamiliar restaurant if information about food quality is unclear, even when advertising promises an exceptional experience. In practice, a restaurant's reputation may improve when consistent food quality and attentive service can meet customers' expectations. Rather than relying solely on publicity, restaurant owners need to consider whether their offer fits local preferences and customers' budgets.

Taken together, these points show why the dining experience deserves careful attention when restaurants serve their customers. To make the most of customer feedback, owners can review recurring concerns, allowing diners to receive more consistent service.

对食客来说，一顿饭的价格并非唯一考虑，他们还要看菜品与服务是否让这次就餐值得。一家有特色的餐厅的吸引力还在于令人印象深刻的菜品与环境，这些优势让顾客能够获得不同于日常餐食的体验。如果食品质量信息不清楚，食客对一家陌生餐厅仍可能持谨慎态度，即使广告声称它能提供出色体验。实际生活中，当稳定的菜品质量与周到服务能够满足顾客期待时，餐厅的口碑有可能改善。餐厅经营者需要考虑提供的餐饮服务是否适合当地口味和顾客预算，而不是只靠宣传。

由此可见，餐厅服务顾客时，就餐体验值得认真关注。为更好地发挥顾客反馈的作用，经营者可以审视反复出现的问题，让食客获得更稳定的服务。

2019 年　英语二　高校毕业生去向的变化

【英文套用】

Changes in graduate destinations at one university between 2013 and 2018 are illustrated in the chart. While the share entering further study rose from 26.3% to 34%, the employment share fell from 68.1% to 60.7%, narrowing the gap between them.

Further study helps graduates develop specialist knowledge, particularly when their intended careers require deeper training. What matters to graduates is not merely the time spent in education, but whether a course develops abilities that their future work requires. Through career planning, students can compare employment, further study and entrepreneurship rather than assume one route suits everyone. Rather than following classmates without reflection, graduates need to consider whether further study fits their interests, abilities and financial circumstances. If career planning is to lead to realistic choices, students need opportunities to explore different occupations, together with reliable advice from teachers and employers.

Taken together, these points show why career planning deserves careful thought when graduates choose their next step. To encourage well-informed decisions, universities could offer personal guidance, giving students a better chance to assess suitable options.

由此可见，毕业生选择下一步道路时，职业规划值得认真思考。为鼓励充分了解情况后作决定，大学可以提供个别指导，让学生更有机会评估合适的选项。

2020 年　英语二　大学生手机阅读的目的

【英文套用】

The pie chart compares reported percentages across four purposes of mobile reading among college students, with clear differences between the categories. The percentages for learning, passing time and obtaining information are 59.5%, 21.3% and 17%, respectively.

Mobile reading helps students use short breaks to learn, particularly when useful material is readily available wherever they happen to be. The appeal of mobile reading also lies in quick access and portability, which allow learners to consult information without carrying several books. Students show careful judgment when they examine an author's evidence and check uncertain claims before deciding what to accept. Those who set a clear reading goal are more likely to select material that deserves sustained attention, even when free time is limited by other responsibilities. For this reason, mobile reading has value beyond filling spare moments, as it can support independent study while accommodating different interests and reading needs.

Taken together, these points show why mobile reading deserves thoughtful use when students organise their learning. To encourage effective reading, universities could recommend reliable resources, giving students a better chance to choose suitable material.

当他们无论身在何处都能方便地获得有用材料时，手机阅读能帮助学生利用短暂空闲进行学习。手机阅读的吸引力还在于快捷获取与便携，这些优势让学习者能够查阅信息而不必随身携带多本书。学生先查看作者的证据、再核查存疑的说法，然后才决定接受什么观点，这就体现了审慎判断。设定明确阅读目标的人，即使空闲时间受到其他事务的限制，也更有可能选出值得持续关注的材料。因此，手机阅读的价值不只在于填补空闲时间，它还能支持自主学习，同时兼顾不同兴趣与阅读需要。

由此可见，学生安排学习时，手机阅读值得用心利用。为鼓励有效阅读，大学可以推荐可靠资源，让学生更有机会选择合适的材料。

2021 年　英语二　居民的不同锻炼方式

【英文套用】

The bar chart compares participation rates across four exercise options reported by city residents, with clear differences between the categories. The percentages for exercising alone, exercising with friends and exercising with family are 54.3%, 47.7% and 23.9%, respectively.

Whether regular exercise becomes sustainable often depends on how well exercise arrangements suit the schedules and preferences of individual participants. The appeal of exercising alone also lies in flexibility and independence, which allow busy residents to choose a convenient time without coordinating with others. For those who enjoy company, shared exercise offers an opportunity to combine activity with conversation, especially when a quiet route encourages relaxed conversation. The value of an exercise routine depends less on occasional intense workouts than on whether participants can keep exercising safely over several months. By choosing a suitable time and companion, residents can stay active while still having enough time for responsibilities that require their attention.

Taken together, these points show why regular exercise deserves continued attention when communities plan local activities. To encourage wider participation, local authorities could maintain accessible facilities, giving residents a better chance to exercise in suitable ways.

经常锻炼能否长期坚持，往往取决于锻炼安排是否适合每位参与者的时间安排与偏好。独自锻炼的吸引力还在于灵活与自主，这些优势让忙碌的居民能够选择方便的时间而不必与别人协调。对喜欢有人陪伴的人来说，结伴锻炼提供了把运动与交谈结合起来的机会，尤其是在安静的路线有利于轻松交谈时。日常锻炼的价值，与其说取决于偶尔的高强度锻炼，不如说取决于参与者能否在数月内安全地坚持运动。通过选择合适的时间和同伴，居民既能保持运动，也仍有足够时间完成需要他们处理的事务。

由此可见，社区安排当地活动时，经常锻炼值得持续关注。为鼓励更多人参与，地方部门可以维护方便使用的设施，让居民更有机会以适合的方式锻炼。

2022 年　英语二　快递业务量及农村快递增长

【英文套用】

Changes in China's express-delivery volumes between 2018 and 2020 are illustrated in the chart. By 2020, total volume and rural volume had reached 83 billion parcels and 30 billion parcels, respectively, both above their starting levels.

Changes in parcel delivery often reflect changing shopping habits and transport links, since online purchases depend partly on the delivery services available. The appeal of rural delivery also lies in better connections with distant suppliers, which allow households to obtain goods unavailable in nearby shops. In practice, rural delivery may help local producers sell beyond their villages when reliable collection services can meet small farms' shipping needs. What matters to recipients is not merely the delivery charge, but whether parcels arrive safely and collection points are convenient. The future of rural delivery will also depend on whether operators can serve smaller communities reliably without making deliveries unaffordable.

Taken together, these points show why rural delivery deserves continued investment when operators expand their networks. To make the most of rural delivery, businesses can improve collection points, allowing residents to receive parcels conveniently.

快递业务的变化往往反映了购物习惯与交通联系的变化，因为网上购物在一定程度上取决于能够获得的快递服务。农村快递的吸引力还在于与远方商家之间更便捷的联系，这些优势让家庭能够购买附近商店没有的商品。实际生活中，当可靠的收件服务能够满足小型农场的寄送需要时，农村快递有可能帮助当地生产者把产品销往村外。对收件人来说，快递费并非唯一考虑，他们还要看包裹能否安全到达、取件点是否方便。农村快递今后如何发展，还要看快递企业能否在不使快递费用难以负担的同时为较小的社区提供可靠服务。

由此可见，快递企业扩大网络时，农村快递值得持续投入。为更好地发挥农村快递的作用，企业可以改善取件点，让居民方便地收取包裹。

2023 年　英语二　我国居民健康素养水平上升

【英文套用】

Changes in health literacy among Chinese residents aged 15–69 between 2012 and 2021 are illustrated in the chart. From 2012 to 2021, the proportion with basic health literacy rose from 8.8% to 25.4%, an increase of 16.6 percentage points.

Health education helps residents use basic health knowledge in daily life, particularly when advice is explained through familiar examples. A practical meal plan makes healthy eating easier to practise, since residents know which foods to buy and how to combine them. Those who understand the value of regular exercise are more likely to make time for it, even when their working day is busy. The benefits of health education also reach residents' family members, who may try similar meals at home when they see others preparing balanced meals. The value of health literacy depends less on the number of facts memorised than on whether people can maintain habits that protect their health over a sustained period.

Taken together, these points show why health education deserves continued support when communities provide health services. If communities offer plain-language health talks, residents will find it easier to understand basic advice, and health education can reach more families.

当讲解结合生活实例时，健康教育能帮助居民把基本的健康常识用在日常生活中。有了实用的饮食计划，健康饮食更容易落实，因为居民知道该买哪些食物、如何搭配。了解经常锻炼有什么益处的人，即使工作忙碌，也更有可能抽出时间运动。健康教育也能让居民的家人受益；看到别人合理搭配饮食，他们可能在家尝试类似的搭配。健康素养的价值，与其说取决于记住了多少知识，不如说取决于人们能否在较长时间内坚持有益健康的习惯。

由此可见，社区提供健康服务时，健康教育值得持续支持。如果社区举办通俗易懂的健康讲座，居民就更容易理解基本的保健建议，健康教育也能走进更多家庭。

2024 年　英语二　大学生参加劳动实践课的收获

【英文套用】

The bar chart compares reported percentages across four benefits of college labour-practice classes, with clear differences between the categories. The percentages for gaining knowledge, improving practical skills and enjoying a better mood are 91.3%, 84.8% and 54.4%, respectively.

Practical learning helps students connect classroom knowledge with real tasks, particularly when they can test ideas with their own hands. Those who complete a task themselves are more likely to notice details that explanations alone can miss, even when the activity appears familiar. Through labour practice, students can adjust methods after seeing actual results rather than memorise instructions without understanding them. Although working together may require careful coordination, different strengths allow a team to finish tasks that individuals would find difficult. If labour practice is to remain educational, students need meaningful tasks suited to their abilities, together with guidance that leaves room for independent effort.

Taken together, these points show why labour practice deserves careful design when universities develop their courses. To encourage active learning, teachers could provide varied practical tasks, giving students a better chance to apply what they have learned thoughtfully.

当他们能够亲自动手检验想法时，实践学习能帮助学生把课堂知识与实际任务联系起来。亲自完成任务的人，即使活动看起来很熟悉，也更有可能注意到单凭讲解可能遗漏的细节。通过劳动实践，学生能够根据实际结果调整方法，而不是不理解就死记操作说明。虽然共同劳动可能需要认真协调，但不同的长处能帮助团队完成个人难以完成的任务。要让劳动实践持续发挥教育作用，学生既需要适合自身能力的有意义的任务，也需要为独立尝试留出空间的指导。

由此可见，大学开发课程时，劳动实践值得用心设计。为鼓励主动学习，教师可以提供多样的实践任务，让学生更有机会认真思考后运用所学。

2025 年　英语二　社区老年人的休闲活动

【英文套用】

The bar chart compares participation rates across five leisure activities among older residents in a community, with clear differences between the categories. The percentages for watching television, walking and growing flowers are 90.8%, 68.3% and 34.7%, respectively.

For older residents, leisure offers an opportunity to pursue familiar hobbies and meet others, especially when a welcoming community centre encourages conversation and shared hobbies. What matters to older people is not merely the price of an activity, but whether it is accessible and comfortable enough to enjoy regularly. Whether leisure supports wellbeing often depends on how well available activities suit the interests and physical abilities of individual residents. By choosing suitable activities and times, older residents can remain active without undue strain while still having enough time for routines that require attention. For this reason, community leisure has value beyond passing time, as it can bring enjoyment and social contact while accommodating different preferences and physical abilities.

Taken together, these points show why individual choice deserves close attention when communities plan leisure activities. If communities offer accessible activities, older residents will find it easier to participate, and leisure can enrich everyday life.

由此可见，社区安排休闲活动时，个人选择值得认真关注。如果社区提供方便参加的活动，老年居民就更容易参与，休闲也能丰富日常生活。

2026 年　英语二　人们对儿童户外活动的看法

【英文套用】

The bar chart compares reported percentages across four perceived benefits of children's outdoor activities, with clear differences between the categories. The percentages for satisfying curiosity, developing observation skills and improving fitness are 54.6%, 54.5% and 37.2%, respectively.

For children, outdoor activity offers an opportunity to explore surroundings through direct experience, especially when the setting encourages safe observation and discovery. Through outdoor exploration, children can ask questions about what they notice rather than depend entirely on second-hand explanations. By exploring a park with their children, adults can show children why careful observation matters, instead of leaving them with instructions they cannot connect with experience. Whether outdoor activity benefits children often depends on how well activities and supervision suit the ages and abilities of the children involved. By setting aside time for walks, families can share outdoor experiences while still having enough time for responsibilities that require attention at home.

Taken together, these points show why outdoor activity deserves thoughtful support when families plan children's free time. To encourage safe exploration, communities could maintain suitable spaces, giving children a better chance to learn through experience.

对儿童来说，户外活动提供了通过亲身体验探索周围环境的机会，尤其是在活动环境有利于安全地观察与发现时。通过户外探索，儿童能够就观察到的事物提出问题，而不是完全依赖他人的讲解。成人通过和孩子一起探索公园，能让孩子明白仔细观察为什么重要，而不只是给他们无法与实际体验联系起来的指令。户外活动能否让儿童受益，往往取决于活动与看护安排是否适合儿童的年龄与能力特点。通过留出散步时间，家庭既能共同体验户外活动，也仍有足够时间完成需要在家处理的事务。

由此可见，家庭安排儿童的空闲时间时，户外活动值得用心支持。为鼓励安全探索，社区可以维护适宜的场所，让儿童更有机会通过体验学习。
